Upright Monuments

...are the largest choice and are available in a myriad of styles and sizes. The classic upright is polished front and back, with a small arch on top.

Heart Monuments

...express love like no other and come in single or double hearts.

Teardrop Shapes

...are a beautiful way to express loss and grieving.

Custom Monuments

...are available in any imaginable size, shape or style. Some interesting options are field stones or boulders, unique shapes, angels carved into uprights, panda bears, lions etc.

We can build steel or stainless steel monuments with CNC equipment.

The Natural Oval

...is a popular shape with a splash of distinction.

Double Wings

...are two stones on the same base, joined by a separate section of granite that the family name is often inscribed on.

Flat & Bevel Monuments

Bevel Monuments, or "pillows" are an enduring classic. Typical sizes are 12" by 20, 24, 30 and 36" widths. Standard thickness is 6" at the back by 3" in front, while a polished front and back to hold a family name would be 8" at the back and 5" in front.

Flat Monuments are an excellent choice for budget conscious sites. Common sizes are 12x8, 20x12, 24x12, 24x16, 30x20, 36x20, 36x24 and 36x30.

Open book monuments add a special presence to any grave.
